

Opentherm Gateway Status Summary

Central heating enable	Central heating mode	Service request	
Domestic hot water enable	Domestic hot water mode	Lockout-reset	
Cooling enable	Cooling status	Low water pressure	
Outside temp. comp. active	Flame status	Gas/flame fault	
Central heating 2 enable	Central heating 2 mode	Air pressure fault	
Fault indication	Diagnostic indication	Water over-temperature	
Room temperature	--- °C	Outside temperature	--- °C
Room setpoint	--- °C	Boiler water temperature	80.88 °C
Remote override room setpoint	--- °C	Return water temperature	65.88 °C
Control setpoint	90.00 °C	Domestic hot water temperature	--- °C
Max. central heating water setpoint	45.00 °C	Domestic hot water setpoint	65.00 °C
Relative modulation level	87.00 %	Central heating water pressure	1.67 bar
Max. relative modulation level	100.00 %	OEM fault code	---
Error 01:	0	Error 02:	0
Error 03:	3	Error 04:	2
